

SMART CAMERA

Manual Guide

Legate Smart Home Security System

Let's Get Started.

Install the app

Download the **Legate Smart Home** app from Google Play or the App Store on a compatible phone or tablet.

Register and login

Register on the app by using your contact number or Email address.

Connect to wifi

Make sure that your mobile phone and smart device are connected to 2.4 GHz wifi network.

*note: The distance between the phone and smart device should not be greater than 4meters while pairing both devices. If the signal is week you'll need a wifi booster. (Recommended Wifi Booster Version: **TP LINK TL-WA855RE**) Legate Smart Camera to Legate Smart Home App

Getting the Smart Device Ready

Insert the **USB Power Cord** on the Smart Camera's USB Port and plug the Power Adapter into a power outlet.

(note: You'll hear "Camera Start" voice which indicates the Smart Camera is ready to connect to Legate Smart Home app. If there's no voice, press and hold the Reset Button until a voice audio comes out)

Insert **Micro SD Card** at the bottom part of the camera head.

(note: Maximum Micro SD Card capacity is 256GB)

Add Smart Device

Open Legate Smart Home app, Click "+" or **Add Device**.

Under "Security & Sensor" tab Click "Smart Camera".

Network Configuration

Enter your **Wifi Password**. Then click "**Confirm**" button.

(note: Only 2.4 GHz Wifi network are supported)

Network Configuration

Follow the instruction and click **"Continue"** button.

After scanning the QR to the Smart Camera, you will hear a beep sound. Then click **"I Heard a Prompt"**

Network Configuration
